Signs of New Life

- Spiritual life like physical life is a subtle but powerful force inherent in every Christian believer.
- Make sure you have spiritual life.
- Early on, examine the infant's color, breathing, pulse rate, reflex and muscle tone.
- Spiritual changes also take place.
- Biogenesis (scientific principle: life comes from life)

Wind & Life

"The wind blows where it wishes and you hear the sound of it, but do not know where it comes from and where it is going; so is everyone who is born of the Spirit" (John 3:8).

Water & Life

"But whoever drinks of the water that I shall give him shall never thirst; but the water that I shall give him shall become in him a well of water springing up to eternal life" (John 4:14).

The life force is focused rather than dispersed, and so it is with spiritual life—abounding and free, yet very purposeful.
