Chapter #2 Exercises

Two exercises help us understand the root problems of our failures and bad habits and why we do well when we make good decisions to please God. Do these after the reading.

❑ **Making Good Matches: Download: [pdf](#)**

- Complete during lesson 24 but not earlier.
- Purpose: Sharpen our understanding of the three significant decision categories. Chapter 2 shows us that we are responsible for our decisions and can make good ones by God's grace. This exercise sharpens how we make decisions, good or bad.
- Match each of the forty character traits below with one of the three categories. If you cannot figure one out, that is fine. Circle it so you can go back to it later.
- Two questions at the top of lesson #24 help us get the correct answers.
- Again, we have the answers on the following page. No peeking!

❑ **Faith Definitions: [pdf](#)**

- Complete on lesson 26 but not earlier.
- Purpose: Better understand the way faith (confidence) impacts our decisions. When we correctly believe in God, we make good decisions, but when we do not fully believe in Him and His Word, we tend to make faulty decisions.
- Page 1: Read the faith definitions supplied. Pick two words for each column, and write a faith definition for each. Use one of the words: belief, trust, confidence, or doubt (the opposite of trust) in these faith definitions.
- Page 2: This is an extra sheet to do more faith definitions as directed.
- Page 3: This sheet provides key definitions identifying the root problems in some areas of life, such as worrying, self-hatred, lying, bitterness, etc. This sheet has no assignment, but it serves as a reference.

❑ **Life Application sheet: [pdf](#) | [docx](#) | [epub](#)**

- Download and complete the life application sheet for each chapter. Include these in your exercise binder. They will help you focus on the lessons God has been teaching you. There are no right or wrong answers.
